IRS Circular 230 Disclosure: Any tax advice contained in this communication (including any attachments) is not intended to be used, and cannot be used, to avoid penalties imposed under the U. S. Internal Revenue Code, and was written to support the promotion or marketing of the transactions or matters addressed here. Individuals should seek independent tax advice based on their own circumstances.

1. Early surrenders or optional rider fees combined with a consistently down market could result in loss of principal.
2. Product features, riders, options and availability may vary by state. Consult with your financial advisor to determine state variations and restrictions and other conditions that may apply.
3. Indexed account credit calculations exclude dividends. While the value of each indexed account is affected by the value of an outside index, the contract does not directly participate in any stock, bond or equity investment. These indexed accounts are currently offered, however we may change, add or eliminate indexed accounts.
4. If withdrawals are taken from a contract with the Income 25 rider in year one, the bonus to the initial benefit base is limited to 12.5%.
5. If death occurs during the first three contract years, any non-vested premium bonus amounts will be recovered.
6. At the time of full surrender, any penalty-free withdrawals taken during the prior 12 months will be assessed a surrender charge and any non-vested premium bonus will be recovered.
7. For contracts that include an optional GMWB rider, withdrawals in excess of the guaranteed withdrawal amount will reduce the benefit base and therefore reduce future guaranteed withdrawal amounts.

**SURRENDER CHARGES**

- Applies upon full surrender or withdrawals in excess of the free withdrawal amount during the surrender charge period
- Calculated as a percentage of the contract value surrendered or withdrawn
- Surrender charges will never reduce the surrender value below the total guaranteed value
- Surrender charges and recovery of non-vested premium bonus amounts are waived if contract owner is diagnosed with a terminal illness on or after the first contract anniversary. A terminal illness is a condition that is expected to result in the owner's death within six months (waiver only available for issue ages 79 and below)

**MARKET VALUE ADJUSTMENT**

- Applies during the surrender charge period
- Adjustment may be positive or negative depending on the change in the interest rates since contract issue
- Adjustment will never reduce the surrender value below the total guaranteed value or the single premium. Likewise, the maximum positive adjustment to the surrender value cannot exceed the maximum negative adjustment
- Applies when surrender charges and recovery of non-vested premium bonus amounts are waived under the terminal illness waiver

**TOTAL GUARANTEED VALUE (TGV)**

- Minimum value contract will provide as the surrender value, death benefit and amount available for annuitization. TGV is not affected by market value adjustment, surrender charges and recovery of non-vested premium bonus amounts
- Equal to 87.5% of the single premium, accumulated at the applicable TGV interest rate, less withdrawals and rider fees
- TGV rate is set at issue and remains in effect for the life of the contract

**Surrender charges are assessed according to the following scale:**

Contract Year	1	2	3	4	5	6	7	8	9	10	11	12	13+
Surrender Charge%	12.5%	12.5%	12.5%	11%	10%	9%	8%	6%	5%	4%	3%	2%	0%
Vested Bonus % <sup>8</sup>	0%	0%	0%	0%	0%	10%	20%	30%	40%	50%	60%	70%	100%

8. Percentage of premium bonus that is vested. Upon full surrender or withdrawals in excess of the free amount, non-vested premium bonus amounts, reflected as (one minus the illustrated percentage shown above), are recovered. The amount recovered is based on the premium bonus percentage multiplied by the amount of full surrender or excess withdrawal. The recovery of any premium bonus will never reduce the surrender value below the TGV.

**This product is subject to state approval.**

**Annuities are long-term investment vehicles particularly suitable for retirement assets. Annuities held within qualified plans do not provide any additional tax benefit. Early withdrawals may be subject to surrender charges. Withdrawals are subject to ordinary income tax, and if taken prior to age 59½, a 10% IRS penalty may also apply.**

**The insurance products are: — Not insured by FDIC, NCUSIF, or any other state or federal agency that insures deposits; — Not a deposit or obligation of, underwritten or guaranteed by, the depository institution or any affiliate; — Subject to surrender charges that could result in loss of principal invested.**

Products offering a bonus may offer lower credited interest rates, lower participation rates, lower caps and/or higher spreads, and have higher expenses than products not offering a bonus. Over time, and under certain circumstances, the amount of the bonus may be more than offset by the increased charges, lower credited interest rates, lower participation rates, lower caps and/or higher spreads. Interest rates, participation rates, caps and spreads are subject to change.
